The team leader of CSAT is Elkana Capelle. Other team members are listed in the <http://10.10.10.15/government/departments/department-of-telecommunications/cyber-security-awareness-team-committee.aspx>

## **2.7 Other information**

General information about the CSAT can be found on the website at the link [www.naurugov.nr](http://www.naurugov.nr)

## **3. Scope of work**

### **3.1 Mission Statement**

Cyber threats have increased over the last few months. The Republic of Nauru ICT has had few encounters resulting in loss of data and delay of ICT services. ICT envision that by enhancing its awareness and having to educate its users within then, this will increase its chance of mitigating cyber threats. For example, the most vulnerable sector is the user and by educating users this will surely reduce the risk of cyber security risk.

### **3.2 Establishment and responsibilities**

The CSAT was established in 2019 by the ICT department. The main responsibilities and services provided to the Nauru government departments.

## **4. Policies**

### **4.1 Incident handling and level of support**

The level of support offered by the CSAT is only to provide Cyber Safety Awareness and basic incident handling.

#### **4.2 Cooperation, Interaction and Disclosure of Information**

The CSAT highly regards the importance of operational cooperation and information sharing between different departments, which may contribute towards or make use of their services. All sensitive data and information are transmitted in a secure channel.

#### **5. Disclaimer**

While every precaution will be taken in the preparation of information, notification and alerts, the CSAT assumes no responsibility for errors or omissions, or for damages resulting from the use of the information contained within.
